Le Hong Phuc

.NET Backend Developer Intern

0788580223

phucle682004@gmail.com

Hoa Xuan, Cam Le, Da Nang

06/08/2004

SKILLS

Programming Languages: C#, Java, Python, JavaScript, HTML/CSS

Frameworks & Technologies: ASP.NET Core MVC, Entity Framework Core

Database Systems: SQL Server, MySQL

Version Control: Git, GitHub

Basic Knowledge: RESTful API design, Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC)

Languages

- **Vietnamese**: Native
- **English**: Intermediate – able to read technical documentation and communicate in a team setting

Education

Bachelor of Software Engineering **2022 - 2026**

FPT University – Da Nang City, Vietnam

- Relevant Coursework: Object-Oriented Programming, Data Structures & Algorithms, Database Systems, Web Development, Software Engineering
- GPA: 3.15/4.0

OBJECTIVE

As a third-year Software Engineering student at FPT University, I am pursuing a career in backend development, focusing on the .NET ecosystem. I am seeking an internship opportunity to apply my academic knowledge to real-world projects and to strengthen my skills in C#, ASP.NET Core, SQL Server, and software development best practices. My goal is to become a backend developer with strong system thinking, capable of building efficient, scalable, and maintainable APIs.

Work experience

Role: Backend Developer (.Net) June 2025 - Ju 2025

Team Project – Pet Service Website

- Participated in a team of 4 to develop a web application providing pet-related services.
- Built using **ASP.NET Core MVC**, **Entity Framework Core**, and **SQL Server** for full-stack web functionality.
- Implemented core features such as:
  - ▸ **Booking system** for scheduling pet spa and grooming services
  - ▸ **Online store** for purchasing pet food and accessories
  - ▸ **Authentication & authorization** (Customer, Staff, Admin roles)
- Designed and optimized the database schema with proper relationships and constraints.
- Applied **repository pattern** and **service layer architecture** for clean code structure and scalability.
- Worked with **HTML/CSS, Razor, and Bootstrap** for the frontend layout.

Role: Backend Developer (Java) Jan 2025 - Mar 2025

Team Project – Agricultural Product Sales Management System

- Worked in a team of 3 to build a CRUD web application for managing agricultural product sales.
- Implemented backend logic using **Java Servlet, JSP, and JDBC**, following the **MVC architecture**.
- Developed key features: user login, product management, shopping cart, and order processing.
- Designed and optimized a **MySQL** relational database.
- Integrated **payment gateway** for order checkout (simulation/mockup).
- Researched and implemented a basic **chatbot** feature using predefined responses to enhance user interaction.
- Gained experience in team collaboration, version control with Git, and deployment on Apache Tomcat.
